

Participate in the Food Council of Differdange!

Are you interested in how our food is produced, transformed, consumed, and recycled? Do you want to support the local food economy or introduce more local products in the shops in our municipality? Do you want to fight food waste and suggest ways to use it more efficient? Do you work in the food sector and are you aware of the difficulties and problems of our current food system? Do you want to actively participate in a transition? Then don't hesitate and contact us in order to become a member of the Food Council, "Ernährungsrot" of Differdange! **Everyone can participate** and bring his/her ideas and knowledge: if you are a citizen, shop owner, distributor, producer, farmer, if you work in the "Horesca", healthcare, education or with a non-profit organisation, or if you are just interested in the transformation of the food system. We are looking for an open and diverse group.

What will the Food Council do?

A Food Council looks at the current situation of the food system in Differdange and proposes ideas and improvements for the future. Participating in the Food Council means bringing your ideas and advices, imagining objectives and pilot projects for our city! You have the chance to meet new people, exchange ideas, create links, share your experiences, and participate in working groups to realise a transformation of our food system. Cities like Toronto, Cologne, Bordeaux, and Ghent have preceded us and are encouraging their citizens to become actively involved in food issues.

Why is it necessary to transform our food system?

The current food system is not sustainable. It is affected by, but at the same time also causing climate change, lack of resources, loss of biodiversity, pollution, illnesses and allergies related to nutrition, as well as worldwide inequality. The Food Council of Differdange wants to change this and wants to commit to making the food system more sustainable, resilient, and ecological.

This transition cannot be done without your help!

Participate, and let's grow the fruits of tomorrow together.

If you are interested becoming a member of the Food Council or if you want more information, please contact us:
